About Me

A student at the University of Westminster pursuing a degree in computer science. As a highly motivated and enthusiastic individual, I am ready for new challenges by learning new skills and sharing my experience, attitudes, and personality.

Education

BSc (Hons) Computer Science

2021-present

Informatic Institute of Technology associated. with the University of Westminster, UK.

GCE Advanced Level

2020

Rahula College, Matara

'B' pass for ICT and 2 'C' passes for Physics and Combined Mathematics

GCE Ordinary Level

2014

Narandeniya National College, Kamburupitiya.

8 'A' passes and a 'B' pass.

Work Experience

A web app called patient 360 (Group Project)

2022-present

- Using graphs to improve accessibility for mental healthcare
- Doing back end part using python and flask
- Doing front end part using react.

Simple 3D rocket game

2022

- Demonstration of Vector Maths and Physics Principles in Unity.

Skin-Consultation-Centre

2022

- A Java program to manage a Skin Consultation Centre with a console system and GUI.
- Software developed via java language by applying all OOP concepts.

CruiseShip-boarding-application 2022

- A Java program that can be used to manage guests and accommodations on a cruise ship.

Exam marks management system 2021

- A Python program that grades students according to their credit scores.
